CERTIFIED NATURAL HEALTH PROFESSIONALS

Don't Miss This Seminar!

SYMPTOMS A-Z

The hundreds of symptoms that clients bring to their health professional can be overwhelming to both the novice and experienced. This class is designed to break through the intimidation and break down the list into a simple understandable process.

Thoroughly understanding the causes of symptoms prepares the student for a majority of questions they will face. Mastering the correct process of analyzing symptoms enables them to be ready for virtually any health condition. For each symptom, the student will learn the popular myths, top causes, do's/don'ts, top natural solutions, and how to choose the best options.

Highlights:

- The cause of all unwanted symptoms
- Simplifying and structuring the analysis of symptoms
- Details on over 20 of the top symptoms such as Joint Pain, Stress, Energy, Cholesterol, Allergies, Weight Loss, and many more!
- How to find the best of all options
- Current myths in natural health
- Preparing for "unknownitis"
